

## Protocols For Summer Camp 2020

- Parents are required to notify the Childcare Director when their child will be dropped off and picked up for summer camp this year.
  - Parents/caregivers are not allowed in the building.
  - A staff member will walk with the child, in and out, for drop off and pick up.
  - We will be conducting a health questionnaire and temperature check before each child enters the building.
  - Children must use the provided hand sanitizer before entering the building.
  - Children must have a mask packed in their bag for trips to the park.
- 
- Pick up: Parents will be required to call and notify the office when they are in the parking lot. A teacher will then bring them to the front and drop them off with their parents/caregivers.
  - This year children will be put into small groups based on their age. Those groups will remain the same throughout the week. The counselor that is assigned to that group will also be with the group all week.
  - We ask that children only bring their (optional) packed lunch, a change of clothes, a towel, and sunscreen. We will also have a hot free lunch available for all summer camp participants.
